Divoom voombox-travel manual. Voombox travel pairing. Divoom speaker pairing. Divoom voombox manual.

1. Turn off the bluetooth/cell phone; then restart the Bluetooth/móvil phone; You can also restore the speaker (press and hold the light button for more than 10 to restore the speaker) 2. Delete the pairings used rarely on the Bluetooth list (if there are too many devices, sometimes it will affect the Bluetooth match) 3. Restart the Divoom application or reopen your cell phone4. Whether there is a successful Bluetooth connection sound when you turn on the device, judge if someone has connected the device, it is recommended to customize the pairing password (if you are connected by others: Press the Bluetooth button Traditional speakers disconnect the Bluetooth; press the ignition button twice to disconnect bluetooth or long press the light button for more than 10 to restore the speaker of pixels) 5. Try another móvil phone (it may be that some telephones have compatibility problems or the Bluetooth version of the móvil phone is too low) 6. If the previous forms do not work, try: IOS system, especially iOS13.1 or iOS13.2, it is recommended to update the iOS system recently released; Android system, it is recommended to test another minor phone 1. After connecting the charger, is the light indicator red? 2. The red light does not turn on. Check if the load cable is connected and if the charger admits the 5V output. The red light is on. Check if the charger output current is within 1-2A, or try a genuine charger4. Connect the loader to load the flickering of the red light, indicating that the speaker's battery is broken 1. Use a separate charger to load. It is not recommended to use the USB of the computer to load and use aux. To listen to music at the same time. 2. (There is no other speaker and you can listen to the song on your mobile to check if the song itself is a problem)3. Check if the player's sound effect is activated, causing the wrong speaker game.4. See if there is any foreign matter in the position of speaker 1. Determine whether the wire is in good condition and if the load indicator of the machine is on. If the indicator light is on, the charge is fine; for some machines without indicator light, try another load cable2. Determine whether the charger is correct. Many of our machines require 5V, 2A. Some forged chargers have a load current of only 200-300mA, and it will take a long time to collect.3. The battery of the machine that has been left for too long can be exhausted, and it needs to be loaded with the correct cable and charger for about half an hour to recover. You can let the client take a while and then wait. Press "POWER BUTTON" for 8s to reset the traditional speaker. Press the "light button" for 10s until the pixel speaker is offpxoo64: Resettlement Network: Long press the button for 15 seconds. Restart the internal settings (clear subscription information, etc.). In the Pixoo64 connection mode, use the APP in the lower click Use the card reader to format the TF card on your computer. You can also replace the new TF card directly. File format should be FAT 1. A disposable alarm clock can be set on the speaker, see the manual for more details.2. Use APP to configure the alarm clock (can be used up to 10 alarm watches). Find Good Morning Wake-Up in the app-select an alarm clock to turn on the alarm of the week-whether to recycle-Click on the upper right corner after the má © of all the alarm alarm ring Set the alarm clock to distinguish between morning and afternoonNote: After the alarm is activated, the alarm will ring for five minutes, the snooze waits for five minutes, the bell rings for five minutes, the snooze waits for ten minutes, and the bell rings for five minutes. 1. First confirm whether the operation is correct (check the manual)2. It is best to plug in the antenna or usb line to enhance the signal when searching for a station by long pressing.3. If it is difficult to receive the table indoors, it is best to lean against the window or extend the antenna outside. Can record (recording can be realized on the device APP) Recording time is one minuteThe current recording can be kept once, but the recording cannot be saved after being playedRecording operation: 1. Long press the speaker playback button for more than 2 seconds to enter the recording mode, and short press the playback button to play the recording after the recording is completed; 2. Use APP recording function to record Long press the menu key to turn off the keyboard light (light key off) 1. Is there an authorized APP positioning2. Whether the phone positioning is turned on The speakers with TWS function are: POWER, PRO, TWS, Macchiato, MOCHA2 ways to connect to the box: 1.2 speakers are all in the pairing state (Bluetooth, etc. flashing), short press the box button of one of the speakers to enter the box mode, and one of the Bluetooth lights on the pairing will be on2. Use the mobile phone to connect one of the machines to Bluetooth (Bluetooth, etc., long on), and the other machine is in the pairing state (Bluetooth, etc. flashing), short press the TWS button of the connected Bluetooth machine to enter the pairing state, and know the other one The Bluetooth light of the machine is always on to connect to the box. Please refer to the instruction manual for the box button of each speaker After connecting to the APP, the time is automatically set at the time of the phone. (If you use the PPP to calibrate for a period of time, the criterion is that the machine's glass oscillator is diverted, and repaired) Traditional speakers will automatically turn off in 20 minutes when they turn on and match. By connecting to Bluetooth or playing songs, they will not turn off until the battery is low. Pixel speakers will automatically connect to the APP for calibration or through the speaker button. All the above content is for the 70 days of the free trial. 1. Confirm if there is a sound from the card and the card is formatted. Does the card correctly receive 128G (some speakers are 64GB). Confirm if the TF card is loaded and change TFM. The above rules that the high probability is that there is a problem with the speaker itself 1. Check if the network is normal2. Whether the mobile phone has turned off the animation screen You can't set your favorite song like alarm ringtone There's a card on the port or the Bluetooth light is on, but there's no boot sound, basically you can judge that the speaker is broken or the connection drops. 1.
